You already know the beginning...
Career Paths for PhD: Getting started

- **Why are you striving for a PhD?**
  - Motivations
  - Expectations
  - Skill sets
  - Timelines
  - Research interests and styles
  - Networks

- **It is critical to analyze your own goals, values, skills, experiences**
  - Knowing what makes you unique is part of the process of a PhD and beyond
  - Stretching beyond your current comfort zone is also part of the process
Career Paths for PhD: Now that you are in the program

- Connect with your faculty to find the right mentor
  - Read their work and their mentor’s work
  - Be prepared to discuss their research agenda
- Read widely, listen, and see where you fit in the broader academic conversation
  - This takes time and effort, attend talks all around RU and at conferences
- Determine your research agenda
  - Where can you contribute to an academic/professional conversation?
- Write, Write, Write (to find your rhythm, develop style)
- Take Teaching Seriously
  - Presentation skills are the foundation of all future job talks and conference presentations
  - Sign up for workshops and observations, review evaluations to improve your presentations
  - Presentation/Interactional skills are invaluable in future job interviews
Career Paths for PhD: While in the program

- Build a local support group: Writing and Research require regular, constructive feedback
  - GSNB blog for grad students: [http://rugradstudentblog.net/](http://rugradstudentblog.net/)

- Now is the time to begin to Network, Network, Network
  - Move beyond the local, go global, seek out colleagues
  - Refine your social media brand at all times

- Seek funding support. See [http://gradfund.rutgers.edu/](http://gradfund.rutgers.edu/)
  - “We assist Rutgers graduate students with identifying and applying for merit-based research grants and fellowships to support graduate study and research.”
  - “Our database contains over **3800 awards** from nearly **1900 funders**.”
  - Subscribe to their Gradfund Newsletter
Career Paths for PhD: While in the program

- Prepare continuously throughout the program, don’t wait!
  - Understand academic practice by participating in workshops, seminars and courses
    - Center for Teaching Advancement and Assessment Research
      - [http://gsnb.rutgers.edu/EventCalendar](http://gsnb.rutgers.edu/EventCalendar)
    - Teaching Assistance Project
      - [http://tap.rutgers.edu/](http://tap.rutgers.edu/)
    - Professional Development & Future Faculty Training
      - [http://gsnb.rutgers.edu/ProfDev](http://gsnb.rutgers.edu/ProfDev)
    - Project AGER: Advancing Graduate Education at Rutgers
      - [http://gsnb.rutgers.edu/ProjectAGER](http://gsnb.rutgers.edu/ProjectAGER)
  - PreDoctoral Leadership: Each year, the PreDoctoral Leadership Development Institute (PLDI) welcomes a select group of Rutgers doctoral students from a broad array of disciplines to its two-year program.
    - [http://www.odl.rutgers.edu/pldi/index.html](http://www.odl.rutgers.edu/pldi/index.html)
    - Dr. Brent D. Ruben, Executive Director, SC&I Faculty
Career Paths for PhD: While in the program

- **Refine** your questions continuously, be prepared to change
- **Combine** your interests in new ways, do constant trend analysis
- **Define** your vocabulary to indicate your theoretical ground
- **Align** with organizations and institutes - NETWORK!
- **Remind** yourself often of your ultimate goals
- **Unwind**: step away and refresh, this is a life long project
Five things successful PhD students refuse to do
High achievers work out how to stand their ground and make the most of every opportunity.
What were they doing differently?

…the high-achieving postgrads all had one thing in common: refusal.

Here are five things they simply refused to do:

1. Feel like a failure
2. Feel out of control
3. See themselves as employees
4. Stress about getting published
5. Turn their back on business opportunities

http://www.theguardian.com/higher-education-network/blog/2014/may/02/five-things-successful-phd-students-refuse-to-do
Career Paths for PhD: Step into YOUR new world

- **Join your** academic/professional associations and locate subcommittees of interest
  - Think local, national, global, and virtual
  - Look for opportunities to serve your associations and broaden your knowledge/network
  - Read your area academic/professional journals (where you will publish) to see the latest trends in research.
    - Notice writing styles and examine your fit, learn to shift writing styles
    - Seek out and meet the editors and leading contributors at conferences

- **What other reading should you be doing to get ready for your career path?**
  - Chronical of Higher Education “Manage Your Career” column
  - Inside Higher Ed Career Advice column
  - Read your PhD listserv notices and DSA notices

- CV or Resume??? Create a master file to draw from for both tools
Career Paths for PhD: Step into YOUR world

Demystifying Academia: Preparing for the Academic Job Market
Wednesday, September 30, 2015, 10:30am - 12:45pm

Learn about the academic job market from a panel drawn from the humanities, social sciences, and sciences. We especially welcome first and second year graduate students who want to gain early knowledge of professionalizing mandates. Topics covered will include CVs, cover letters, research statements, teaching portfolios, managing the stress of multi-year searches, transitioning from post-doc to faculty positions, and interview tips.

**Location**  RDJC Conference Room, 162 Ryders Lane, Douglass Campus

BREAKFAST WILL BE PROVIDED  **PLEASE REGISTER FOR THIS EVENT**

**Panelists**
- Stina Sodlerling
- Gwendolyn Beetham
- Zaire Dinzey Flores
- Deborah Silver

This workshop is sponsored by the Institute for Research on Women, the Department of Women’s and Gender Studies, and the Office for the Promotion of Women in Science, Engineering, and Mathematics.

Career Paths for PhD: Traditional or Alternative Paths

- **Academic**: You can continue your career within the Higher Education sector, applying for posts as a assistant professor or to do research in your area of subject knowledge.

- **Alternative academic**: You can continue to work within the Higher Education sector, but you can start to specialize in a subject area or body of knowledge that differs from your core academic discipline. For instance you can apply for posts in university administration or research centers. If you were to manage a research center in your area of academic subject expertise, this would put you on the borderline between 1 and 2.

- **Research, Publishing and Consultancy**: You can continue to work within the same area of subject knowledge as your PhD, but do so in a job outside of Higher Education, applying for posts such as a researcher working in a lab for a private company, or in a government department.

- **Professional**: You can apply for posts in another sector where you won’t be using the specific academic subject knowledge that you gained from your PhD discipline either. For example, I (Chris Humphrey, PhD – JobsonToast.com) now work as a project manager for an ethical bank. I don’t manage projects relating to History or Literature (my academic training) – but I do manage technology projects and I help the bank to launch new financial products and services.

Career Paths for PhD: Job Searching

- Your Professional/Academic Associations are your primary resource
  - Networking
  - Job Searching
- At annual conferences and local meetings these associations:
  - Generally host an employment area where you can discuss openings
  - Generally host social events
    - Meet faculty, administration and other graduate students
    - Experience organizational cultures
- Do not ignore the Trade Representation at these events
  - Often an opportunity to meet scholars at book presentations in this area
  - You might decide to move into a non-academic track: vendors represent potential career paths
